

I was informed by KLOVE Radio that you are considering to change their communications, please do not replace KLOVE with any LPFM broadcast provider; it is a joy to have some good uplifting and healthy Christian music to listen to without commercials. KLOVE serves me personally every single day! KLOVE is in the best interest of the public because the public needs more encouraging stations to listen to that offer the hope and peace of Christian music and the message of Jesus Christ. The public needs to be able to readily access decent music through KLOVE. thank you
